COMMERCIAL ROLLSHUTTERS

STYLISH PROTECTION FOR YOUR PROPERTY

SECURE & PROTECT

with Shutter Pros Rollshutters

Your one time, cost effective Security Solution!

STANDARD COLOURS

Or choose from over 1800 custom colour options available

The **STRONGEST SECURITY PROFILE** in the industry!

UNBEATABLE STRENGTH

Shutter Pros is proud to offer the strongest roll formed aluminum rollshutter available in the industry. Made from high-quality aluminum and stainless steel components and insulated with a polyurethane foam, they provide the ultimate security solution for any location often targeted by vandalism, break-ins and theft.

CUSTOM MADE

Our rollshutters are custom made in our state-of-the-art manufacturing facility. They are specifically tailored to fit any application and are uniquely engineered to create a long-lasting, and maintenance free security solution.

STYLISH & SOPHISTICATED

Shutter Pros rollshutters are designed to combine purpose with appearance. Along with the many colour options available, they are constructed using smaller panel boxes than the industry standard so that they blend seamlessly into the exterior of your building while offering a practical solution for a variety of applications. Utilize your rollshutter as a marketing opportunity during closure periods by printing your logo or a product offering directly on the rollshutter curtain. See the back of this brochure for more information.

EASILY OPERATED

Rollshutters can be operated manually or by motorized control, either individually or as a group. Motorized group control makes closing time effortless. Shutter Pros offers high security key switches, key pads, remote control, timers, battery backup capability and more. For even greater convenience, they can be integrated into your building automation and alarm systems and can be operated remotely while on vacation or when working from home.

WE CAN MANAGE ANY SIZED PROJECT – FROM BIG TO SMALL

Shutter Pros has been committed to manufacturing high quality security solutions for nearly 40 years.

Having installed our products on countless applications across the globe, Shutter Pros has earned the reputation of a trusted industry leader with the expertise to handle any sized project with confidence and efficiency.

SERVICE YOU CAN TRUST

Shutter Pros has a vast network of highly trained dealers to distribute and install our products.

A Shutter Pros authorized dealer in your area will meet with you to ensure you receive the right solution for your needs. They will define the product specifications, take measurements, and implement an effective installation.

Once your products are installed, our knowledgeable support team is always available to assist with any questions or concerns that may arise during the lifetime of your Shutter Pros products.

BUILT TO LAST

Shutter Pros rollshutters are made using the finest quality materials and the most durable components to ensure your business is well protected.

We also want you to feel protected with our comprehensive warranty.

Feel confident in knowing that your Shutter Pros products are covered for a worry-free, long-lasting security solution.

THE ENERGY EFFICIENCY OF ROLLSHUTTERS

Shutter Pros rollshutters were selected by the **National Research Council Canada**, for a comprehensive study on the energy efficiency of exterior solar shading versus interior solar shading.

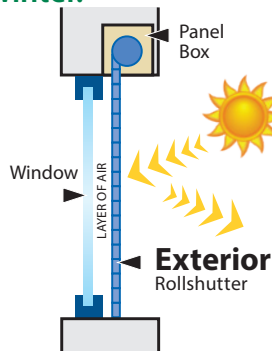

The study concluded that, when closed during the day & night in summer:

- rollshutters reduced the daily average electricity demand for cooling by 50-80% and based on the time-of-use pricing structure, this translated into a cost savings of approximately 34%

When closed at night in winter:

- rollshutters reduced heat loss by 19% resulting in a savings of approximately 4% (± 2%) in energy use
- interior window surfaces were 3-5°C warmer which results in a significant reduction of moisture condensation on interior window surfaces

Rollshutters block heat in summer and reduce heat loss in winter.

Insulated with a polyurethane foam and mounted on the exterior, rollshutters trap a layer of air between the rollshutter curtain and the window. Both contribute significantly to reducing the cooling and heating energy demand.

Exterior movable shading solutions are now recognized by architects as being the most effective method of reducing energy demand. They are considered to be an essential concept in the design of new sustainable buildings and retrofits as we move closer to the CO₂ reduction targets set for 2030.

ROLLSHUTTERS VS. Other Security Options

	Our Rollshutters	Security Cameras	Alarm Systems	Security Bars	Window Film
Deters Vandalism	●	●		●	
Deters Break-ins	●	●	●	●	●
Prevents Glass Breakage	●				●
Reduces Energy Use	●				
Harmonizes with Building	●	●	●		
One-time Application	●			●	●
Provides Light Control	●				

MAKE A STATEMENT WITH CUSTOM GRAPHICS

Stand out from the rest and utilize your rollshutter as an advertising opportunity. Shutter Pros can print your logo, photographs or any image you wish directly onto your rollshutter.

Make use of your window coverage and make a statement!

ANTI-GRAFFITI COATING

This non-sacrificial coating has a durable chemical resistant surface that makes it an ideal choice for rollshutters installed in public areas often targeted by graffiti.

Simply wipe off paint, markers and more, time and time again, without needing to reapply the coating.

Opt for Shutter Pros anti-graffiti coating to eliminate unnecessary frustration and expense.
